Introducing **MANGA** *for* *your Ministry*

Generally, manga refers to comics created in Japan by Japanese artists, conforming to a style developed in the late 19th century. It is a visual language, expertly employed by artists to convey both whimsical and sensible expressions of the internal state of the characters, both the mood and heart of the story.

In Japan, people of all ages read manga. In 2007, manga as a sector of the Japan publishing industry was worth 400 billion yen, with at least a million copies printed everyday.

Exploring every avenue to reach the next generation, we are excited for this opportunity to present today's young people with the best selling book in the history of the world, containing the greatest story ever told, about the most controversial man who ever lived, in the most popular graphic novel format on earth.

With the support of churches and ministries around the globe, as of 2017, we have printed nearly 9 million copies of the Manga Bible and booklets in 30+ different languages.

Testimonies

"Our teachers in the pushcart classroom use this material to entice [children] and teach them not just the value of reading but also the value of having faith in God ... one major way that the Manga helps the students is to have a deeper relationship with the Lord and to know Him more. "

.....

"We love being able to present a Manga book to a camper who, for one reason or another, has difficulty grasping the Gospel message another way. We have found that many of those who receive a Manga book are engaged in reading and exploring it throughout the week. We also appreciated having the Manga books for the cabin leaders to present to campers as gifts at the end of the week. Many found that giving away one or two created a strong interest among the other campers which sparked questions that lead to spiritual conversations or even reading from the books as a part of cabin time.
